

Alice PHE

Research Engineer

Mail: phealice@gmail.com
Phone: +33 7 81 57 46 85
Location: Orsay, FRANCE

Frameworks

Machine Learning: Deep Learning, Computer Vision, Object Detection, Zero-shot Learning

Programming: Python, Pytorch, Tensorflow, C/C++, MATLAB, ROS, slurm

Tools: Git, Linux, Docker, Blender

Languages

Teochew: Fluent
French: Native
English: C1 (TOEIC: 975/990)
Japanese: A2/B1

Interests

Teaching

Algorithms and Complexity 2022
· Teaching Assistant at CentraleSupélec, Université Paris Saclay for the 1st year computer science main engineering track

Technical Projects

DGA Challenge
Nov 2020-March 2021
· Student challenge for a multi UAVs collaborative cartography
· Usage of **ROS** for systems operation / Gazebo for simulation

Treasurer @ ENSTA Robotique
2018-2019

· Participation to the French Robotics Cup 2019 with a student team
· PCB conception with Fritzing
· Budget management for a loi 1901 association

Work Experience

Research Engineer in Computer Vision / Deep Learning

LVA, CEA List, Université Paris-Saclay
2022-2025

Paris, FR

- Deep Learning research on **zero-shot Object Detection**
- Development and deployment of an **open-vocabulary** Transformer in a zero-shot paradigm with multimodal 3D queries input from ShapeNet / Objaverse, LLM and contrastive learning ; training and evaluation on large-scale curated computer vision (MS-COCO extension, LVIS, ObjectNet)
- Distributed model training, evaluation and optimisation on HPC
- Publication to ICIP2024 : MS-COCO dataset extension with 3D models
- Advisors : Dr. Q.-C. Pham, Dr. B. Luvison, Dr. M. Chaouch

AI Research Intern

LVML, CEA List

April–Nov 2021

Paris, FR

- Research and Industrial Applications of Image Super Resolution with Deep Learning using GANs (**Tensorflow**), training on DTD and transfer and evaluation on custom sport data
- Study of domain / features transfer issues for Industrial pipeline

Data Scientist Intern

Deloitte, Financial Advisory, eDiscovery Team

Sept-Feb 2020

Paris, FR

- Improving tools for forensics investigation on software and hardware supports

AI Research Intern

Computer Vision Lab, **TUM**

May-August 2019

Munich, GER

- Cityscape segmentation and classification with Deep Learning using Siamese networks (**Pytorch**)

Formations & Research

Publications

ICIP 2024: 3D COCO-extension of MS-COCO dataset for image detection and 3D reconstruction models, M. Bideaux, A. Phe, M. Chaouch, B. Luvison, Q.-C. Pham

ICIP 2024

October 2024

Abu Dhabi, UAE

Poster Presentation

Deep Learn / Big Data 2023 Summer School

Summer 2023

Las Palmas, ESP

M. Sc in Computer Science

ENSTA Paris

2017-2021

Paris, FR

- Majoring in Robotics and AI
- Complementary formation from M2 DataAI (Institut Polytechnique de Paris)

Higher School Preparatory Classes (PCSI/PC*)

Lycée Louis Le Grand

2015-2017

Paris, FR

- Intensive preparatory course for national competitive exams to the grandes écoles
